Search Notes

Dear Examiner

Please read though the following results.

I found one thing about displaying shipments on a calendar (see read tabs). They also have a patent application *09691980 Electronic Shipment Planner* that might be worth taking a look at. As far as calculating capacity goes it doesn't look like it something that they bother to write about. One company that looked interesting was http://www.routesmart.com their program is used by Federal Express, UPS and the Post Office.

If a modification or re-focus of this search is needed, please let me know.

If you have any questions please feel free to contact me.
